

Registering for the Safetoken enables you carry out transactions on any web merchant site that has integrated to the Interswitch payment gateway using a One Time Password (OTP) as a second level authentication process in addition to your Card Number, Card Expiry Date, PIN and CVV2 code.

Here are the steps required to register for the Interswitch Safetoken service.

## **HOW TO REGISTER FOR SAFETOKEN**

### **OPTION 1:**

Go to your nearest bank branch and request for your card to be enrolled for the Safetoken

### **OPTION 2:**

Go to the nearest ATM, and insert your ATM card  
Input your 4-digit PIN and press Enter  
Select your bank account type eg Savings or Current  
Select the 'Quickteller' option from the ATM menu screen  
Select 'Pay Bills' from the Quickteller menu list on the ATM screen  
Select 'Others' for the bill payment menu option list  
Enter '322222' as the Payment Code  
Enter your Phone Number as the Customer Reference Number and select 'Proceed'  
You will get a display "Do you want to make this payment?" Amount Due: N1  
DO NOT edit the amount to be paid  
Click on "Pay amount due"  
You will then get a confirmation page indicating the registration was successful

\*Note that a surcharge of N100 may be applicable to a successful registration.

## **USING THE SAFETOKEN SERVICE**

Once you are able to complete the registration either at the bank branch or at an ATM, you will be able to receive One Time Passwords (OTPs) to complete online payments.

Please note that you may need to request for your card to be activated for online payments by your bank before you are able to complete online payments successfully.
